Appendix B

RISKS

The Participant understand that BCO Tokens, blockchain technology, Ethereum, Ether and other associated and related technologies are new and untested and outside of Bananacoin's exclusive control and adverse changes in market forces or the technology, broadly construed, may prevent or compromise Bananacoin's performance under these Terms.

Participant agree that no other party (including, without limitation any) may be held liable for any loss arising out of, or in any way connected with Participant's participation in the BCO Tokens-sale, or receiving and holding Tokens or such risk.

In addition to the above, the Participant also acknowledge that prior to receiving Tokens he have been warned of the following risks, associated with the Website, the Bananacoin Tokens and other relevant technologies mentioned herein:

A) Legal risks regarding securities regulations

There is a risk that in some jurisdictions the BCO Tokens might be considered to be a security, or that it might be considered to be a security in the future. Bananacoin does not give warranties or guarantees that BCO Tokens are not a security in all jurisdictions. Each holder of BCO Tokens shall bear its own legal or financial consequences of BCO Tokens being considered a security in their respective jurisdiction.

Every Participant is bound to check if acquisition and disposal of BCO Tokens is legal in his jurisdiction, and by accepting these Terms, each Participant undertakes not to use BCO Tokens should their use not be legal in the relevant jurisdiction. If a Participant establishes that the use of BCO Tokens under these Terms is not legal in his jurisdiction, You should not use the BCO Tokens, not acquire them and should immediately stop using or possessing them if such case arises.

Acquiring cryptographic Tokens for personal possession and exchanging them for other cryptographic Tokens will most likely continue to be scrutinized by various regulatory bodies around the world, which has so far given mixed reactions and regulatory impact. The legal ability of Bananacoin to provide BCO Tokens in some jurisdictions may be eliminated by future regulation or legal actions. In the event, it turns out with a high degree certainty that BCO Tokens are not legal in certain jurisdiction, Bananacoin will either:

- 1) cease operations in that jurisdiction, or
- 2) adjust BCO Tokens in a way to comply with the regulation should that be possible and viable.

B) Risks associated with Ethereum

BCO are based on Ethereum blockchain. As such, any malfunction, unintended function or unexpected functioning of the Ethereum protocol may cause the BCO Tokens to malfunction or function in an unexpected or unintended manner. Ether, the native unit of account of the Ethereum may itself lose value in ways similar to BCO Tokens, and also other ways.

C) Risk of unfavourable regulatory action in one or more jurisdictions

Blockchain technologies have been the subject of scrutiny by various regulatory bodies around the world. The functioning of the Ethereum network and associated blockchain networks and BCO Tokens could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of digital Tokens like BCO Tokens, which could impede or limit their existence, permissibility of their use and possession, and their value.

D) Risk of theft and hacking

Hackers or other groups or organizations may attempt to interfere with Your Third-party Wallet, the Website or the availability of BCO Tokens and Digital Assets in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks. You hereby agree that Bananacoin shall have no liability for any such loss the Participant incur.

E) Risk of security weaknesses in the Website and/or BCO Tokens source code or any associated software and/or infrastructure

There is a risk that the Website and BCO Tokens may unintentionally include weaknesses or bugs in the source code interfering with the use of or causing the loss of BCO Tokens.

F) Risk of weaknesses or exploitable breakthroughs in the field of cryptography

Advances in cryptography, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies, Ethereum, BCO Tokens, which could result in the theft or loss of BCO Tokens.

G) Risk of mining attacks

As with other decentralized cryptocurrencies, Ethereum blockchain, which is used for the BCO Tokens, is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, “selfish-mining” attacks, and race condition attacks. Any successful attacks present a risk to the BCO Tokens, expected proper execution and sequencing of BCO Tokens, and expected proper execution and sequencing of Ethereum contract computations in general. Despite the efforts of Bananacoin and Ethereum Foundation, the risk of known or novel mining attacks exists. Mining Attacks, as described above, may also target other blockchain networks, with which the BCO Tokens interact with and consequently the BCO Tokens may be impacted in that way to the extent, described above.

H) Risk of loss of value

Value of BCO Tokens may fluctuate and their Participants might suffer loss in value of such acquired tokens. There might be different reasons that would cause unfavourable fluctuations of the value of the BCO Tokens.

I) Risk of uninsured losses

BCO Tokens are unlike bank accounts or accounts at some other financial institutions and are entirely uninsured.

J) Risk of malfunction in the Ethereum network or any other blockchain

It is possible that the Ethereum network or any other network, to which the BCO Tokens are interacting with, malfunctions in an unfavourable way, including but not limited to one that result in the loss of BCO Tokens

K) Internet transmission risks

The Participant acknowledge that there are risks associated with using the BCO Tokens including, but not limited to, the failure of hardware, software, and Internet connections. The Participant acknowledge that Bananacoin shall not be responsible for any communication failures, disruptions, errors, distortions or delays You may experience when using the Website and BCO Tokens, howsoever caused.

L) Unanticipated risks

Cryptocurrencies and blockchains are new and untested technology. In addition to the risks set forth here, there are risks that Bananacoin cannot foresee and it is unreasonable to believe that such risks could have been foreseeable. Risks may further materialize as unanticipated.

M) Insufficient interest in BCO Tokens

It is possible that BCO Tokens will not be purchased by a large number of participants and that there will be limited public interest in the project. Such a lack of interest could impact the future of the project.
